Invisalign Is More Affordable Than You Think...

Invisalign is one of the most remarkable advances in orthodontics in the last 20 years.

Invisalign offers patients an alternative to old-fashioned wires and brackets. It is more attractive, allows more normal eating during treatment, and permits better hygiene...all positives! Because it doesn't require learning how to use complicated brackets and wires, Invisalign has attracted the attention of general dentists in addition to orthodontists. I love it! I use it!

Is Invisalign treatment the same no matter who provides it?

Pressure moves teeth. It doesn't matter where it comes from. It is no surprise that plastic aligners can move teeth too. Invisalign is a series of clear aligners that deliver precise forces which sequentially move teeth into predetermined positions. The bottom line however is that Invisalign is just another tool that a doctor can use to straighten teeth. The keys to the outcome of your treatment is an accurate diagnosis, and how well you wear your aligners.

Invisalign is more affordable than you think...

Now a days a visit to the hospital can be over up to \$10,000 just for the day. My nephew had Lasik surgery this past winter. The total treatment time for his screening was 1 hour for the appointment, 30 minute procedure, and 1 follow up visit of 15 minutes. The fee was \$4700 required to be paid in full without a payment plan.

Invisalign can take up to 18 months of treatment. During that time you will see me about 10 times. Additionally our office will finance your treatment over time interest free!!!

At the end of your treatment you will have a healthy set of teeth. Most importantly, you will have a smile that looks and makes you feel fantastic!

MEET Dr. Philip S DeSenze, D.D.S.

At DeSenze Dentistry, our priority is to deliver quality dental care to informed patients, with an emphasis on prevention, while taking into account your oral and overall health. When you are experiencing dental problems, you need a dentist who is **experienced, sympathetic** and **cares** about your needs.

Specializing in full mouth reconstruction, porcelain crowns and dental implants. Please call us today and schedule an appointment to discuss any concerns you may have absolutely free. I am a dentist who is supported by an experienced and friendly, professional staff, who can advise you on the best ways to maintain and improve your oral health and appearance.

Ask us about our **FREE** consultation on Botox & dermal fillers administered by the doctor.

On a personal note.....

I received my pre-dental undergraduate B.S. and Postgraduate D.D.S. Degrees from Ohio State University. I have been practicing dentistry since 1986, and specialize in general and cosmetic dental services.

I currently live in Coral Springs with my wife, Anna and two daughters, Alexa and Maria. I enjoy golfing and relaxing on the beach. I am an absolute sport nut! I enjoy every sport, but my true passion is college football and college basketball. **GO BUCKS!!!**
